To Whom It May Concern,

I am applying for the English Teacher position at Ripon High School posted on the San Joaquin County website, January 13, 2021. I am the best fit for this team as I am highly motivated and meet all the requested requirements for this vacancy.

I have served as a leader and role model in various areas over the last several years. I hold myself to a high standard of morale and character. Some of the programs and activities I have been involved with are; youth leader, Love Ripon Board Member, ASB Leadership, and missionary trips to Mexico. I obtain organization and time management skills to create efficient lesson plans for my students. I can teach English and History subjects and able to manage a large classroom with ease. I understand the importance of professionalism and sensitivity to working with all students of diversity and circumstances. I have several years' experience working with youth and have succeeded with effectively communicating with all. Making a difference and helping others is essential to me; therefore, a teacher's position to provide these services would be most fulfilling for my career.

I am a highly professional and productive individual with also the skill-set of teaching. I look forward to learning more about this opportunity in hopes I am a potential candidate. Thank you in advance for your time.

Sincerely,

Zoe Barba
